

The RS3 multiple award Indefinite-Delivery Indefinite-Quantity (IDIQ) contract is to provide Army Contracting Command - Aberdeen Proving Ground (ACC-APG) customers, other Program Executive Offices (PEOs), other Department of Defense (DoD) agencies, and other Federal agencies with knowledge-based support services for requirements with Command, Control, Communications, Computers, Intelligence, Surveillance, and Reconnaissance (C4ISR) related needs.

The spectrum of mission areas for programs with C4ISR-related requirements include such support services as Engineering; Research, Development, Test and Evaluation (RDT&E); Logistics; Acquisition and Strategic Planning; and Education and Training.

Features
<ul style="list-style-type: none"> C4ISR Engineering Services include any C4ISR-related services or work - the adequate performance of which requires education, training, and experience in the application of special knowledge in consulting, investigating, evaluating, planning and designing, and engineering principles.
<ul style="list-style-type: none"> C4ISR RDT&E Services include any services directed toward the innovation, introduction, and improvement of products and processes for C4ISR-related requirements.
<ul style="list-style-type: none"> C4ISR Logistics Services include any logistics functions and tasks during the development, production, and sustainment phases of a system lifecycle for C4ISR-related requirements.
<ul style="list-style-type: none"> C4ISR Acquisition and Strategic Planning Services include support for C4ISR-related requirements that may result in impaired objectivity or unequal access to information for the contractor performing the services. Some restrictions on future activities of contractors performing these services may be required in accordance with FAR 9.505-1.
<ul style="list-style-type: none"> C4ISR Education and Training Services include any services for training, education, and exercise support for C4ISR-related requirements.
